Laggon Public has been a hive of activity over the last two weeks. The students have enjoyed a creative, linguistic and cultural day with the small schools joining us for the *Lieder Theatre Company's* Indigenous Performance and post activities.

Students are participating in and developing basketball skills through the *Sporting Schools* grant. A whole day spent learning about coding, robotics and technology was a highlight this week with the students who could apply their pre-knowledge from the Friday *Scratch* programming sessions. And to top off the fortnight, three of the students received praise and awards for their sculptures, which were entered at the Willowtree Sculpture Garden.

This Sunday, Laggon is hosting the BBQ at Bunnings to raise funds for the Stephanie Alexander Kitchen and Garden Program. This is a program only available at select schools, which develops the whole student through many learning areas. Laggon Public School is the only school within the area that offers the program and is supported by our community and parents.
